Holy Cross student wins National Crystal Growing competition!

Grade 12 chemistry student, Tessa vanZevenbergen was awarded the top prize for the Chemical Institute of Canada National Crystal Growing competition. Over a period of five weeks, Tessa carefully grew her crystal ensuring that conditions were optimized. Her crystal was judged based on its clarity, size, and sharpness of edges. Tessa will be awarded the \$300 prize later this month and will have her crystal posted on the competition's website. Congratulations also to Michael Brownlee and Sarah Peebles for placing second in the Quality Only category.
